

### The UK [Gay Men's Sex Survey](#) (part of EMIS - the European MSM Internet Sex survey)

#### [East Midlands](#) region of residence data report (March 2011)

This report contains data from the UK *Gay Men's Sex Survey* 2010, which was part of the European MSM Internet Sex Survey (EMIS), a pan-European survey about behaviours, prevention needs and interventions related to HIV and sexual health. The survey ran simultaneously in twenty-five European languages, and was promoted by over 200 websites across Europe. The survey was developed by academic researchers, public health officials and community-based organisations in these countries. More information on the survey can be found at [www.emis-project.eu](http://www.emis-project.eu)

EMIS has already released two documents reporting key variables for men resident in 38 countries across Europe, the *EMIS Community Report #1* and the *EMIS UNGASS Indicators Report*. Both can be found in the [Publications](#) section at [www.emis-project.eu](http://www.emis-project.eu). The indicators provided in this report are the same as those provided in these two reports.

This current report is prepared for health promotion planners with information about their local population of gay men and bisexual men. This report supplements the main UK survey report which will be published in September 2011. Survey methods and interpretation of the variables will be outlined in that report.

There are data reports for each of the ten Strategic Health Authorities (SHA) in England, with men grouped according to their Primary Care Trust (PCT) of residence, and separate reports for England, Scotland, Northern Ireland and Wales, with men grouped according to their region of residence. These 2010 reports, and similar reports for previous years, are available at [www.gmss.org.uk](http://www.gmss.org.uk)

#### **The data**

The survey used a single data collection method via a specific website promoted via links on gay and HIV-related websites. The EMIS survey was available from 4<sup>th</sup> June to 31<sup>st</sup> August 2010, in 25 languages. Overall, 184,470 gay men and bisexual men took part.

To be included in this report respondents had to: be male; be aged between 16 and 89; be living in the East Midlands; have had sex with a man in the last year or have a gay, bisexual or other 'queer' identity.

Respondents with two or more inconsistent answers in six key areas were removed to improve data validity. Differences between the number of surveys returned and the number of men who appear in the sample are due to these exclusions.

### **The tables**

Groups of men living in the same PCT area for which there are 20 or more respondents appear as a row (horizontal line) in the tables. Those PCT areas with fewer than 20 responses are joined together into "All other East Midlands SHA men". The bottom row of each table gives the result for all men living in the East Midlands region. The first table shows the number of men recruited to the survey living in PCTs within the East Midlands region and the size of the sub-samples in the rest of the tables. The tables show the proportions (%) of each sub-sample for that variable (less missing data). Rows add up to 100%. The only exceptions to this layout are table 3, 'Age averages' and table 16, 'Knowledge on HIV testing'.

### **Questionnaires**

The contents page identifies the survey question number (Q) each table is derived from. The questionnaire used in the survey is available to download in the [Publications](#) section at [www.emis-project.eu](http://www.emis-project.eu)

### **Funding**

EMIS was 60% funded by the Executive Agency for Health and Consumers of the European Commission and 40% funded by the five EMIS Associate Partners for their respective work-packages. In the UK the survey was part-funded by the Terrence Higgins Trust on behalf of CHAPS, the national HIV prevention programme funded by the English Department of Health.

## Table Contents

### **SAMPLE DESCRIPTION**

1. Sample size by PCT area of residence.
2. Language survey completed in.
3. Age groups; Q2 grouped into ten year age bands.
4. Age averages; from Q2; the median age (line them up by size and pick the one in the middle), the minimum (youngest) and maximum (oldest) ages, the mean age (add them up and divide by how many there are), and the standard deviation (a measure of how spread out along the range they are). (EMIS Community Report 1)
5. Born in country of residence; Q6.
6. Sexual identity; Q10.
7. 'Being Out'; Proportion of family, friends and work or study colleagues who know about same sex attraction; Q11. (EMIS Community Report 1)

### **SATISFACTION WITH SEX LIFE**

8. 'Happy with their sex life'; Q15. (EMIS Community Report 1)

### **HIV and STI TESTING**

9. HIV testing history and recency of HIV testing; Q71 & Q72 & Q72a & Q104. (EMIS Community Report 1)
10. Percentage of MSM that have received an HIV test in the last 12 months and who know the results amongst men of all ages. (UNGASS indicator 8); Q71 & Q72 & Q72a & Q104. (EMIS UNGASS indicators Report)
11. Percentage of men diagnosed positive among those who have ever been tested for HIV. (UNGASS indicator 23); Q71. (EMIS UNGASS indicators Report)
12. STI testing history and recency of STI testing; Q122 & Q123.

### **HEALTH NEEDS**

13. Confidence in accessing HIV testing (amongst men not diagnosed HIV positive); Q112 & Q113.
14. Perception of availability of free HIV testing (amongst men not diagnosed HIV positive); Q114.
15. Perception of availability of free STI testing (amongst men who had worn condoms); Q117.
16. 'Knowledge on HIV-testing' the average score of respondents knowledge of five statements on HIV transmission testing and treatment; Q61 & Q63 & Q65 & Q66 & Q67. (EMIS Community Report 1)

## **HEALTH NEEDS continued**

17. Percentage of MSM who both correctly identify ways of preventing the sexual transmission of HIV and who reject major misconceptions (UNGASS indicator 14); Q62 & Q68 & Q241 & Q242 & Q243. (EMIS UNGASS indicators Report)
18. Recency of not having a condom when desired; Q206.
19. Concern about alcohol consumption; Q222.
20. Concern about recreational drug use; Q223.

## **SEXUAL BEHAVIOUR**

21. Recency of any sex with male partners; Q148.
22. Condom failure (tearing or slipping) in the previous 12 months; Q219.
23. Communication of HIV status prior to or during sex with last non-steady male sexual partner; Q184.
24. Percentage of MSM aged 15-49 who have had anal or vaginal intercourse with more than one partner in the last 12 months. (UNGASS indicator 16); Q2 & 148 & Q155 & Q163 & Q157 & Q165 & Q208 & Q209.
25. Percentage of MSM reporting the use of a condom: the last time they had anal sex with a male partner within the last 6 months amongst men of all ages. (UNGASS indicator 19); Q148 & Q150 & Q152 & Q153. (EMIS UNGASS indicators Report)

## **HATE CRIME**

26. Experience of homophobic stares and intimidation; Q264.
27. Experience of homophobic verbal abuse; Q265.
28. Experience of homophobic physical abuse; Q266.

## **INTERVENTION PERFORMANCE**

29. Recency of hearing any information about HIV or STIs specifically for men who have sex with men; Q144.
30. Percentage of MSM reached with HIV prevention programmes amongst men of all ages. (UNGASS indicator 9); Q71 & Q82 & Q112 & Q113 & Q144 & Q147 & Q207. (EMIS UNGASS indicators Report)

## SAMPLE DESCRIPTION

### 1. Sample size by Strategic Health Authority area of residence.
