

Prescription for Change

Lesbian and bisexual women's health check 2008

Yorkshire and The Humber

This report is a supplementary report to the Stonewall report **Prescription for Change: Lesbian and bisexual women's health check 2008**. This report provides further regional statistics for each country, each Strategic Health Authority, or healthboard.

Methodology

In the summer of 2007, 6178 women responded to an online and paper survey on their health needs and experiences.

The survey included questions on lifestyle (alcohol consumption, smoking, exercise, mental health), medical history and experiences of the health sector. The survey also captured qualitative evidence from participants about their experiences. These are included in the main report.

Guidance on using the data

This data is intended to provide NHS planners with information about their local population, in comparison to national and regional data. For nationwide statistics (Great Britain) for comparison, please refer to the main report. When citing data from this supplementary report please cite Prescription for Change: Lesbian and bisexual women's health check 2008.

Survey results analysed by Sigma Research.

Lesbian & Bisexual Women's Health Survey 2007

Yorkshire & The Humber Strategic Health Authority data report (June 2008, n=418)

Table Contents

- 1a. Sample size by Primary Care Trust (PCT) of residence.
- 1b. Sample size by PCT of residence for following comparisons.
2. Sexual identity (*How do you describe yourself?*); Q4.
3. Current smoker; Q56.
4. Number of days drank ALCOHOL in the last week; Q60+61.
5. Used any of the following DRUGS in the last year (marijuana, ecstasy, LSD, speed, crystal meth, cocaine, crack, ketamine, GHB, heroin); Q63.
6. Ever tested for sexually transmitted infections / vaginal conditions; Q32.
7. Gender of sexual partner in the last 5 years; Q28.
8. Experience of cervical screening; Q29+Q31 (if aged 25-64 and NOT Trans).
9. Frequency of self-checking for lumps or changes in breasts; Q36.
10. In the last year, made an attempt to take your life; Q53.
11. In the last year, deliberate self-harm (not with the intention of killing yourself); Q54.
12. Ever been told you have eating problems; Q40.
13. Ever experienced domestic violence; Q70+72.
14. Self-rating of health; Q8
15. Body Mass Index; calculated from Q17+Q18.
16. Sexuality disclosure to GP and / or health care professionals.
17. Any negative experiences of health care in the last year; Q43.
18. Health care worker assumed heterosexuality.
19. No opportunity to discuss sexual orientation in health-care setting.
20. Not sure of GP surgery's policy on confidentiality.
21. Came out and health care worker still assumed heterosexuality.
22. Came out and health-care worker asked inappropriate questions.
23. Any positive experiences of health care in the last year; Q43.
24. Health care worker did not make inappropriate comments after disclosure.
25. Acknowledgment of sexuality by health worker after disclosure.
26. Health care work provided an opportunity to come out.
27. Health care worker welcomed partner at consultation.
28. Health care worker gave advice accounting for my sexuality.
29. GP surgery had clear policy on confidentiality.
30. GP surgery displayed non-discriminatory policy including sexual orientation.
31. Attended specialist health service for lesbian or bisexual women.

The Study:

In 2007, Stonewall and De Montfort University asked lesbian and bisexual women from Great Britain to complete a survey about their health.

The survey received 6178 responses making it the biggest survey of lesbian and bisexual women's health needs in Europe.

Eighty one per cent of respondents said that they were lesbian, and sixteen per cent said they were bisexual. Eighty five per cent of respondents live in England, nine per cent in Scotland, and five per cent in Wales. Eighty two per cent of respondents are white British, and the rest are from ethnic minorities, which is comparable with the general population. Respondents come from a wide age-range. The youngest respondent was fourteen and the oldest was 84. Fourteen per cent of respondents say that they have a disability, including physical and mental disabilities.
