

BASS Line 2007

The African Health and Sex Survey

Yorkshire & The Humber Strategic Health Authority data report (n=274, July 2008)

This document reports data from BASS Line 2007, an assessment of the sexual HIV prevention needs of Africans in England, conducted by Sigma Research in collaboration with health promoters throughout England. This data supplements the main report which describes the survey methods and sets the context. That report is available free at: www.sigmaresearch.org.uk/go.php/reports/report2008b

The survey

BASS Line 2007 used two data collection methods, a self-sealing, Freepost addressed booklet distributed by health promotion agencies and online via a dedicated website. The survey was available in English and French. This report contains data from both methods and both languages. To be included here respondents had to: consider themselves African; be aged 16 or over; be in England; and have completed enough questions.

Data reports

Data reports provide HIV health promotion planners with information about their local population in as much detail as is possible given the number of people who took part in the survey. This report contains data from African people who live in Yorkshire and The Humber Strategic Health Authority. Respondents are grouped according to the Primary Care Trust in which they live. To access other Strategic Health Authority reports, and an all England report showing data by SHA of residence, see: www.sigmaresearch.org.uk/go.php/local/african

The tables

Groups of respondents living in the same Primary Care Trust appear as a line in the tables. The bottom line of each table gives the result for the entire Yorkshire and The Humber sample. Tables 1a and 1b show the number of Africans recruited to the survey living in each PCT and the size of the sub-samples in the rest of the tables. The tables show the proportions (%) of each PCT sub-sample in each category of the variable (less missing data). Rows (lines across) add up to 100%.

The contents page identifies the question number (Q) each table is derived from. The questionnaire is available at: www.sigmaresearch.org.uk/go.php/quests/african

Funding

The survey was funded by African HIV Policy Network as a part of the National African HIV Prevention Programme, which is funded by the Department of Health.

Table Contents

SAMPLE DESCRIPTION

- 1a. Primary Care Trust (PCT) of residence.
- 1b. PCT areas with 20+ respondents (for remainder of report).
2. Method of recruitment.
3. Gender (Q5).
4. Gender of sexual intercourse partners in the last year by gender (Q5+Q29/30).
5. Age groups (Q1).
6. Ten most common countries of birth (Q6).
7. Length of time living in the UK (Q7).
8. Educational level (Q12).
9. Religion (Q10).

HIV and STI TESTING and DIAGNOSIS

10. HIV testing history (Q20+Q23).
11. Desirability of, and access to, HIV testing (Q22+Q26+Q27).
12. Most recent STI diagnosis (excluding HIV) (Q16).

SEXUAL HIV RISK BEHAVIOURS

13. Current regular sexual relationships (Q31+Q35).
14. Total number of sexual intercourse partners in the last year (Q29+Q30).
15. Regularity of condom use in the last year (Q38).
16. Experienced condom breakage or slippage in the last year (Q39).
17. Likelihood of sero-discordant unprotected intercourse in the last year (Q43).

HIV PREVENTION NEEDS

18. AIDS is caused by a virus called HIV (Q18a).
19. You cannot be sure that someone has NOT got HIV by looking at them (Q18b).
20. People can have HIV without knowing it (Q18c).
21. There is a medical test that can show whether or not you have HIV (Q18d).
22. Africans are NOT deported from the UK solely because they have HIV (Q18e).
23. There is no cure for HIV infection once someone has it (Q44a).
24. At least 1-in-20 of all Africans living in England have HIV infection (Q44b).
25. There are HIV medicines that can help people with HIV to stay healthy (Q44c).
26. HIV medicines work better if people with HIV take them before they become ill (Q44d).
27. HIV is never passed on through shaking hands or touching people (Q44e).
28. A person with HIV can pass it to a partner during sexual intercourse (Q44f).
29. Condoms are free from sexual health clinics, family planning clinics and some community organisations (Q44g).
30. Some people with HIV have been imprisoned in the UK for passing their infection to a sexual partner (Q44h).
31. I sometimes have a problem getting hold of condoms (Q41a).
32. If I carried a condom I would worry about what people thought of me (Q41b).
33. I can use condoms with a sexual partner if I want to (Q41c).
34. I would find it easy to talk about safer sex and HIV with new sexual partners (Q41d).
35. [Among those who had NOT tested HIV positive]
I do not want to get HIV (if I haven't already got it) (Q47a).
36. [Among those who had NOT tested HIV positive]
I am in control of whether or not I get HIV (Q47c).
