

Bass Line 2008-09: The African Health and Sex Survey

London Strategic Health Authority data report (n=1022, June 2009)

This document reports data from Bass Line 2008-09, an assessment of the sexual HIV prevention needs of African people, conducted by Sigma Research in collaboration with health promoters throughout England. This data supplements the main report which describes the survey methods and sets the questions in context. That report will be available from late July 2009 at:

www.sigmaresearch.org.uk/go.php/reports/african

The survey

Bass Line 2008-09 used two data collection methods, a self-sealing, Freepost addressed booklet distributed by health promotion agencies and online via a dedicated website. The survey was available in English and French. This report contains data from both methods and both languages. To be included here respondents had to: consider themselves African or African-Caribbean; be aged 16 or over; be in England; and have completed sufficient questions.

Data reports

Data reports provide HIV health promotion planners with information about their local population in as much detail as is possible given the number of people who took part in the survey. This report contains data from African people who live in London Strategic Health Authority (SHA). Respondents are grouped according to the Primary Care Trust in which they live. To access other SHA reports, and an all England report showing data by SHA of residence, go to: www.sigmaresearch.org.uk/go.php/local/african

The tables

Groups of respondents living in the same Primary Care Trust appear as a line in the tables. The bottom line of each table gives the result for the entire London SHA sample. Tables 1 and 2 show the number of Africans recruited to the survey living in each PCT and the size of the sub-samples in the rest of the tables. The tables show the proportions (%) of each PCT sub-sample in each category of the variable (less missing data). Rows (lines across) add up to 100%.

The contents page identifies the question number (Q) each table is derived from. The questionnaire is available at:

www.sigmaresearch.org.uk/go.php/quests/african

Funding

The survey was funded by African HIV Policy Network as a part of the National African HIV Prevention Programme, which is funded by the Department of Health.
